Surgical Gloves from Ansell Healthcare

At Ansell, we understand how much responsibility rests in your hands. That’s why we work hard to develop innovative surgical gloves like our powder-free Encore&reg line. The Encore&reg family includes a glove for every need and provides the superior barrier protection of latex while decreasing risks that may be associated with powder. All of our Encore&reg family gloves provide: Safety & Protection, Superior Comfort & Fit, Tactile Sensitivity and Task Specific Designed Grip.

Encore&reg HydraSoft&#153

Smooth&#151Advanced hydrating technology ideal for the prevention of dry, cracked hands
HydraSoft&#153 Technology…for hand health Ansell’s moisturizing technology keeps hands hydrated to reduce dryness, roughness and cracked skin.
Unique features: &#149 Anti-slip smooth finish
&#149 Recommended for the majority of procedures
&#149 Produced on ergonomically designed formers to enhance comfort and fit
&#149 This glove is recommended to be used as an under glove because of the HydraSoft&#153 Technology incorporated in this product

Encore&reg

Textured&#151Ideal for general surgery Addresses Powder-Related Problems&#151These gloves offer all the fit, tensile strength, protection and puncture and tear resistance needed for most surgical procedures.
Unique features: &#149 Textured finish for reliable grip
&#149 Recommended for the majority of procedures
&#149 Produced on ergonomically designed formers to enhance comfort and fit

Encore&reg Acclaim&reg

Smooth - Ideal for general surgery
Smooth for Improved Sensitivity&#151These gloves offer all the fit, tensile strength, protection, and puncture and tear resistance needed for most surgical procedures.
Unique features: &#149 Anti-slip smooth finish &#149 Recommended for the majority of procedures &#149 Produced on ergonomically designed formers to enhance comfort and fit

Encore&reg MicrOptic&reg

Ideal for delicate procedures
Superb Tactile Sensitivity…Exceptional Strength Encore&reg MicrOptic&reg gloves offer exceptional dexterity and tactile sensitivity while providing outstanding strength and barrier protection. These gloves are ideal for delicate procedures in ophthalmic, as well as micro- and cardio-thoracic surgery.
Unique features: &#149 Anti-slip smooth finish &#149 Recommended for times when increased sensitivity to very low levels of tactile feedback is required
&#149 Produced on ergonomically designed formers to enhance comfort and fit

Encore&reg Orthopaedic

Ideal for added protection
Extra protection without the Powder When we designed our Encore&reg Orthopaedic gloves, we made sure they provided the added strength and thickness for tear and puncture resistance that’s

vital to withstanding the rigors of high-risk, trauma and reconstructive procedures.
Unique features: &#149 Textured finish offers superior grip for handling instruments, sutures and situations where the application of high pressure is needed.
&#149 30% thicker than our standard powder-free glove
&#149 Recommended when there is a need for extra protection and puncture resistance
