About Us:

Better, safer healthcare delivery - - You focus on what matters most: improving people's lives. We focus on helping you do just that. Through every link in the chain of care, pharmacies, hospitals and clinics rely on us to improve quality, safety and productivity.

Cardinal Health is a Fortune 21 company that improves the cost-effectiveness of healthcare. As the business behind healthcare, Cardinal Health helps pharmacies, hospitals and ambulatory care sites focus on patient care while reducing costs, improving efficiency and quality, and increasing profitability. Cardinal Health employs more than 30,000 people worldwide.

At Cardinal Health, we work across the broad healthcare spectrum to help make healthcare more cost-effective. To do that requires inclusion. We must strive to reflect the diversity of the industry, our customers and the communities we serve. And we must create an environment where all employees can work together with confidence and trust; an environment where no matter what their background, employees will be supported to do their best work. This is a business imperative that will enable us to continue to attract and retain the most talented people and to deliver even more meaningful solutions to our customers as we work together to improve the cost-effectiveness of the healthcare system.
