

Bariatric/General Purpose Surgical Table

The HERCULES Model 6500HD Bariatric/General Purpose Surgical Table provides full body imaging capability for today's most advanced procedures, including 1,000-pound lift, 850-pound articulation, and 180-degree top rotation. Optional Table Side Extensions can widen the tabletop up to 30 inches for extra large patients. It features 20 tilt, Trendelenburg and Reverse Trendelenburg, full table functions, removable leg section and durable, one touch pendant control. Available with optional voice or touchscreen activation.
