

## General-Purpose Surgical Table

The MAQUET Alphastar Plus Surgical Table features double swivel casters for easy table movement, a column-mounted back-up panel, and a completely sealed column. Options include a remote hand control and a unique auto-drive feature that allows effortless table relocation. This heavy-duty version has a weight capacity of up to 1000 pounds with full articulation. The table is also available in a low-height version (down to 23 inches).
