## **Cold Sterilant Solution**

Tec-Cide Plus&#153 is a high-strength cold-sterilant with accelerated kill times for faster, high-level disinfection of instruments. This sterilant solution uses a lower glutaraldehyde level (3.0 percent) than other extra-strength products to reduce odor and vapor levels. This product is classified for use on critical and semi-critical instruments and scopes. A new solid activator assures a mild, pleasant smell and maintains a consistent efficacy level through 28 days of continuous use.
