

Sterilizer Monitor

The SporView PA Culture Set is the fastest Biological Indicator for monitoring the STERIS SYSTEM 1 sterilizer. It offers reduced incubation time (24 hours versus 7 days), improved storage (room temperature vs. refrigeration) and is available from your Prime Vendor. SPSmedical is the largest sterilizer testing laboratory in North America and sells a complete line of sterility assurance products including biological indicators, chemical indicators, integrators, Bowie-Dick test packs, packaging and recordkeeping products.
