

Complete Electrosurgical System

Preset power mode settings, large displays and push button controls make MEGADYNE's MEGA Power's Electrosurgical Generator easy and intuitive to use. The Mega Power features an advanced cutting effect (ACE) mode for scalpel-like cutting and reduced scarring, and Constant Control Technology that automatically adjusts power as tissue types change for the best tissue effect at the lowest possible settings. The generator is compatible with the Mega Soft reusable patient electrode, Mega Vac's Smoke Evacuator system, E-Z Clean's nonstick pencils and tips or other manufacturer's accessories.
