

## Color-Coded Crash Cart Boxes

Color Crash Cart Boxes with Built-In Handles provide quick and easy access to materials when they are needed. When paired with slide-in lids and dividers (sold separately), the built-in handles allow boxes to be easily carried to and from supply areas or alternate care sites without disrupting contents. Clear lids allow for at-a-glance inventory, while amber lids protect light-sensitive medication. Six vibrant colors are available: blue, green, light blue, red, white, and yellow.
