## Drug Storage Box

The ClearView Security<sup>®</sup> Drug Box provides a safe and convenient way to secure narcotics, small equipment, patients' personal valuables, RSI equipment, and much more. The ClearView also allows for a clear view of inventory and also allows for anesthesia cases to be setup in advance while still keeping instruments/drugs secure. The ClearView can be mounted to a wall, in a patient's room, or even on an Armstrong Medical A-SMART<sup>®</sup> Cart.
