Sharps Disposal Container

Bemis SharpSentinel[®] sharps disposal containers are designed for the safety of both patients and staff. A variety of sizes allow staff to select the right unit for the application. Eight- and Eleven-gallon containers are ideal for use in the OR for disposal of oversize syringes, laparoscopic instruments, trocars, and other large infectious waste items. Other sizes available are 1-quart, 5-quart, 2-gallon, and 3-gallon, and can be used in all areas of a facility including patient rooms, nurse's stations, ICU, ER, labs, and chemotherapy. All containers permanently lock for final disposal and are manufactured using strict quality standards.
