

Fiberoptic Product Repair Service

Sunoptics Surgical employs a team of light and image experts in fiberoptic product repair with over 25 years of experience in fiberoptic engineering with expertise in glass, optics, fiberoptics and illumination. The Sunoptics Service Department offers a full Repair or Replace Program that will work to meet the needs of individual facilities. They provide services for various brands of fiberoptic cables, light sources and headlights, and offer an extensive selection of loaner equipment. The Sunoptics Service Facility meets all quality and regulatory requirements for ISO 9001, ISO 13485, CE, IEC, UL and CSA approvals.
