

Surgical Caps & Hoods

These surgical caps and hoods are designed to provide comfort as well as the appropriate coverage during medical situations. Surgical caps include the Softec® cap made of a hi-loft non-woven material, the Super Soft Cap made of DuPont's Softesse® material and the Kaycel surgical cap made from a scrim-reinforced tissue for maximum absorbency. The company's technique cap has a tie closure for convenience and is made of protective SMS material. In addition to the Surgeon's Hood and Legionnaire Hood, Precept also offers Tyvek hoods of different designs and sizes. All these caps and hoods are latex free.
