

Medical Lighting Catalog

This new four-color, 28-page medical catalog features a comprehensive line of medical lighting for surgeries and exams. The full-range of luminaires featured are ideal for effectively illuminating a variety of clinical applications including minor surgery, procedures, diagnostics, hospital/facilities, and dental lab environments. The catalog highlights the ISIS[®] Minor Surgery Light as well as the Halux[®] 50 halogen light for usage in medical examinations and procedures.
