

Groundbreaking HDTV for the OR

Finally, full high definition digital video custom-made for the surgical environment. See it, try it hands-on at SAGES booth #812. The compact CXHD digital video recording/editing system gives superior image resolution (1920x1080 pixels) with effortless touch-screen technology and a unique Graphical User Interface. Record via surgical camera or endoscope. Replay and edit crisp, clear scenes and stills for PC and Mac presentations. Preview CXHD online, <http://conceptxhd.com/en>. Then see it work at SAGES booth #812.
