Non-Stick Electrosurgical Tips

Booth # 809• E-Z Clean Electrosurgical Tips provide surgeons with a consistent, clean cut at lower power settings to provide a lower risk of thermal necrosis, so healing is enhanced. When eschar builds up the tip is easily wiped clean, with no scraping needed, saving surgeons precious time. With more than two dozen tip configurations and sizes available, E-Z Clean Electrosurgical Tips are the choice for thousands of safety-conscious surgeons. Standard tips include Blade, Needle, and Ball electrodes in a variety of lengths.
