

## Bariatric Table & Foot Extensions

The Amsco® 3080/3085 SP#153 Bariatric Table Extensions provide optimal patient weight and width capacity and expanded surgical capabilities for Amsco multi-purpose surgical tables. Eight modular extensions are rated for patients up to 1000 pounds, and are designed for secure and easy attachment and full positioning capability. They widen the platform to 28 inches, and allow the use of a Bariatric Foot Extension and the Split Leg Positioners, among many other accessories. The Bariatric Foot Extension is also rated for patients up to 1000 pounds, and is designed for secure and easy attachment and full positioning capability. It matches the 28-inch width of an Amsco Surgical Table with Bariatric Extensions, and fully supports any obese patient.
