

Portable Workstation

The new PalWOW Workstation on Wheels is functional, versatile and affordable, giving health care workers the opportunity to boost productivity throughout their facilities. The portable workstation is ideal for use in any department and comes in three models. The Basic PalWOW (Item No. 5610) is ideal for use anywhere laptop transportation or a mobile work surface is needed. It includes a five-leg base with casters, center column and a work top with extendable work surface. The Complete PalWOW (Item No. 5620) is the Basic model plus all the necessities for storing infection protection and computing supplies. Accessories include a utility basket, sharps container and glove box holder. The Medication PalWOW (Item No. 5630) is the Complete model plus a two-tier locking cassette frame and 10 patient bins. It offers the essential items to transport medications, laptop and scanner into patient rooms for BPOC.
