

Plastic Surgery & Specialty Instruments

Miltex now offers Padgett Instruments by Miltex, a new partnership of two well respected names in surgical instrumentation. The Padgett Instruments by Miltex offering features a selection of over 1,000 new instrument patterns to meet a variety of clinical needs for Plastic and Reconstructive Surgery involving breast, face, eye, abdominal, nasal, maxillofacial, cleft palate, hand and many other procedures. In addition to Plastics, these products are extensively used in Dermatology, Oral and Maxillofacial, ENT, Ophthalmology and General Surgery applications. The classic Padgett and Miltex brands provide a combination of choice, quality and an expanded offering showcased in a new 330-page catalog.
