Hand Sanitizers

SafetySmart's Hand Sanitizers kill germs on contact and provides persistent antibacterial protection that will continue to provide protection for up to four hours after a single application. SafetySmart is a specially formulated skin antiseptic that contains a broad spectrum of antimicrobial activity that forms a protective film on healthy skin. It can be applied to any area of intact skin, and is available as both a lotion and as a saturated wipe for ease of application in a variety of work environments. This hand-nourishing emollient lotion is alcohol free, fragrance free, non flammable, non toxic, and has none of the drawbacks associated with alcohol based gels and liquids.
