

Olympus America, Inc.

As a manufacturer of precision surgical instruments, Olympus is dedicated to helping customers care for their instruments to extend their useful life. This includes offering a wide range of repairs from minor adjustments to complete refurbishments where the scope is disassembled to the component level and rebuilt to original manufacturing specifications. Olympus services and repairs its entire product line, including rigid telescopes, flexible endoscopes, ancillary electronic products and accessories. With 18 service centers located throughout the United States, Olympus offers 24-hour turnaround times for a wide range of surgical repairs. They also provide an online 24/7-service portal that allows customers to electronically submit service orders and track instruments in real time, 24 hours a day, seven days a week.
