

Spectrum Surgical Instruments Corp.

Spectrum Surgical provides complete surgical instrument repair, sharpening and restoration services. Any make, any type or any model of surgical instrument can be completely refurbished in Spectrum's state-of-the-art repair lab by their German-trained technicians. Spectrum is contracted with Premier and Amerinet and offers the lowest cost repair pricing in the industry at savings of up to 30% to 50%. In addition, the company services all makes and models of power equipment and offers free evaluations for mail-in power equipment repair. Open seven days per week, 365 days per year, Spectrum provides fast turnaround and emergency service.
