## Sterile Exam Gloves

The Micro-Touch<sup>®</sup> NitraTex<sup>®</sup> Sterile, a latex-free, powder-free sterile examination glove, offers textured fingertips and an extended 12-inch cuff, making it ideal for use in labor and delivery or in any situation where a latex-free sterile exam glove is required or preferred. The gloves provide a superb fit and feel, due to their high elasticity and memory. They also conform to the shape of the wearer's hand, allowing for better dexterity, a more comfortable fit and less hand fatigue.
