

Combination Fluid & Blanket Warming Cabinet

The EC1730bl is a dual-chambered warming cabinet with independent touch keypad controls. The upper fluid compartment holds up to 30 liters and can be set to warm either irrigation or injection fluids. Temperature range for injection fluids is 95 F to 110 F, while the range for irrigation fluid is 95 F to 150 F. The lower blanket chamber has a capacity of 11.875 cubic feet. The blanket chamber temperature can be set as high as 200 F, up to 50 degrees warmer than most other warmers, keeping blankets warmer longer.
