

Bariatric Wheelchairs

These Bariatric Folding Wheelchairs feature a standard weight capacity of 700 pounds and are available in widths of 26, 28 and 30 inches. Each chair comes standard with foot rests, 20-inch seat depth, full length removable arms that are height adjustable and screw attached stainless steel clothing guards. Custom-sized wheelchairs are available with weight capacities from 700 to 850 pounds. Standard features also include composite 24-inch wheels, heavy duty front casters, reinforced and gusseted 5/8-inch axles, twin 1-1/4-inch square cross braces with twin struts, and molded cushioned armrests.
