

NOIR Supreme Cut Scissors

The Aesculap NOIR Supreme Cut Scissors allows you to experience a new dimension in precise cutting and dissecting performance. The latest product offering consist of the following patterns of scissors: Iris scissors, Baby-Metzenbaum scissors, Mayo scissors, and Metzenbaum scissors. The special qualities of the NOIR dissecting scissors allow dissection that is finer than ever before. The Microtome cutting edge technology permits extremely fine dissection with minimal use of force. The combination of the renowned Aesculap tungsten carbide technology along with the Aesculap NOIR coating results in extremely high surface hardness and therefore provides high-wear resistance in daily hospital use. The combined Aesculap technologies offer precision performance every time you use NOIR Supreme Cut scissors.
