

Rigid Scope Repair Service

Spectrum Surgical services all makes and models of rigid scopes, including operating laparoscopes and ureteroscopes, and offers a full range of repair services from interior cleaning of the optical system to rod and objective lens replacements and light fiber replacements. The company offers free written estimates, provides comprehensive 90-day warranties and maintains a large, dedicated in-house loaner inventory. In addition, Spectrum provides ScopeTracker™ software which tracks damage and repair trends per scope. Spectrum is contracted with Premier and Amerinet and offers the low cost repair with potential savings of 30 to 50 percent. Open seven days per week, 365 days per year, Spectrum provides fast turn-around and emergency service.
