

Surgical Equipment Cart

The Pro-Cart offers exceptional cable routing, infinite modularity and a graceful design, as well as a level of versatility unmatched by any other product on the market. Whether a facility requires a cart to carry an electrosurgical generator, a complete endoscopy system or a dual monitor documentation system, the Pro-Cart can meet every need. Raised shelf edges, rounded corners and powder coated surfaces make this an ideal line for all healthcare applications. A complete line of accessories is available.
