

## Mobile Medical Workstations

The new RMC line of mobile medical workstations offers a quick-ship cart and accessory product line to healthcare facilities of all sizes and types. Blue Bell has pre-selected the most popular drawer configurations and colors to offer an in-stock product at a price to fit the budget of healthcare facilities in a tight economy. Three drawer configurations in four colors are available along with the customer's choice of two lock options. The RMC carts and accessories have a one year warranty against manufacturing defects.
