

O.R. Pads & Positioners from Action Products, Inc.

High-performance shear and pressure management for Pediatric to Bariatric patient - Action® O.R. pads and positioners. Action Products, Inc.'s reusable, durable products made of Akton® polymer are designed to withstand the physical demands of the obese population. Action products evenly distribute weight and heat, offer maximum patient support and provide consistent high-performance – critical for longer term procedures. Free of latex, silicone and plasticizers they are also easy to clean and repair. Clinically proven for over 30 years, Action products are available in the widest range of shapes and sizes in the market. Visit www.actionproducts.com or call 800.228.7763 for further information.
