Patient Transport Stretcher

Pedigo's 750 Series Stretchers boast a 750-pound weight capacity. Designed with the caregiver in mind, the 750 Stretcher includes back-saving features such as pneumatic assist fowler, Quick Release O2 Holder (Patent Pending) and a 5 3/4-inch clearance for patient lifts. The sturdy center column uses 16 precision ball bearings to smoothly raise and lower the patient. Full length glide-and-tuck stainless steel rails are easy to clean and disinfect. All Pedigo products are engineered with the company's STERIL-GARD philosophy of designing and manufacturing products to minimize or eliminate any areas where dirt, fluid and bacterial debris can become entrapped.
