

Body Smart Solutions®; Positioning Products

Action Products, Inc.'s Body Smart Solutions® are the premier viscoelastic polymer positioning products for your green OR. You can count on Action's clinically proven pads and positioners, and feel confident that your hospital's green goals are being accomplished. Our domestically made, exclusive Akton® polymer is a reusable product that will cut down on waste caused by disposable positioning products in the OR. With the cost savings of a reusable product and discarding less waste, you will be providing the best service to your patients and your eco-friendly hospital. For more information, please visit us at www.actionproducts.com or speak to us directly at AORN Congress, March 14-19th, Booth #1728.
