Head-Mounted Loupe

The Megaview head loupe comes with three different interchangeable power lenses, 2.0X, 2.5X, and 3.0X. Featuring a hoodless design, the Megaview allows the user to look around the lens when viewing. Each lens has a super-wide field of view and has crystal clear optics. more comfortable and easier to use than conventional loupes, Megaview is also available with a LED light source.
