

High Definition Surgical Camera

Booth # 501 • The 1288 HD 3-Chip® Camera features a 1920 x 1080p resolution along with nine specialty settings, resulting in optimum color resolution and brightness. Additional benefits include wireless transmission capabilities when used with the Stryker WiSe™ wireless flat panel monitor, four fully programmable buttons on the camera head, HD and HDTV outputs and a touch screen LCD interface for easy navigation. The 1288 HD 3-Chip Camera allows for backwards compatibility with past generation digital capture devices, scopes and various flat panels, while also offering future capabilities with an optional fiber optic board.
