

Laboratory & Medical Safety Products

SKS Science Products offers extensive line of laboratory safety products. Of the many lab safety products available, disposable exam gloves are offered in several varieties and sizes to accommodate laboratory and medical practices. In addition to gloves, SKS Science also carries latex-free, three-ply face masks featuring a PVC nose piece that conforms to the face for more comfortable wear while minimizing x-ray reflection. Other products include emergency eye wash stations, glass safety disposable boxes, biohazard burn-up bins, benchguard liners and more.
