

Classic Foot Switch

The **Linemaster** Classic IV foot switch is designed with rugged cast aluminum housing for ease of use and long life in extremely wet applications. According to the company, the switches are offered in momentary action, and feature:

- Availability in SPDT and DPDT circuits.
- Availability of formed steel guards for both the single and twin models to provide the customer with some foot protection.
- NEMA Types 1, 2, 4, 6, 6P & 13 and compliant with requirements of EN 60529 Degree of Protection IP68.
