

## Clinical Review Displays

Medical imaging specialist **Barco** recently introduced its MDRC-2120 clinical review displays. The displays feature:

- A 20" screen.
- 1600 x 1200 native resolution.
- Backlight stabilization.
- A rotating mount.
- A multi-lingual on-screen display.
- Professional LCD-technology and a built-in DICOM Look-Up Table.
- The ability to provide more accurate grayscale, better contrast and a wider viewing angle than conventional computer monitors.
