

Repair, Sharpening And Restoration

Spectrum Surgical Instruments Corp. provides complete surgical instrument repair, sharpening and restoration services for bariatric instruments. Any make, any type or any model of surgical instrument can be completely refurbished in Spectrum's state-of-the-art repair lab by their German-trained technicians. According to the company, Spectrum is contracted with Premier and Amerinet and offers low-cost repair pricing in the industry at savings of up to 30 percent to 50 percent. Open 7 days per week, 365 days per year, Spectrum provides fast turnaround and emergency service.
