

Enzymatic Detergent With Rust Inhibitors

Endozime® Extreme Power combines the power of a super-concentrate with a proven multi-enzyme formula to create the ultimate surgical instrument and scope cleaner for cleaning abilities to deliver fast, thorough bioburden removal.

Enhanced with APA (Advanced Proteolytic Action), Endozime® Extreme Power penetrates into the channels of scopes and cannulated instruments, instantly and actively breaking down gross contaminants upon contact and contains biological additives that speed the process of liquification and solubilization, facilitating enzymatic action and contributing to the product's overall effectiveness. Features include:

- Powerful super-concentrate
- Multi-tiered enzymatic formulation
- Advanced proteolytic action and rust Inhibitors
- Effective in all water temperatures (including cold water)
- Removes all bioburden
- Available in smaller bottle to easily carry, store and pour.
- Universal applications: recommended for use in all automatic washers, washer sterilizers, ultrasonics and for manual cleaning
