

Basic Surgical Skills Development Platform

[Simulab](#) [1] introduces Basic Open Surgical Skills (BOSS), a flexible platform for basic surgical skill development. Its ergonomic design creates a realistic environment for improving skills and provides an easy-to-clean platform for synthetic or cadaveric task modules. BOSS features:

- Practice basic and advanced suturing.
- Durable multi-use platform can be used with any combination of materials.
- Ergonomic design ensures correct hand positioning.
- Small, portable platform perfect for simulation lab or home use.
