

Sharps Safety Station

Advanced Medical Innovations (AMI) presents the innovative Sharps Safety Station needle counter box. This box has the following safety features:

- Three Safety Hinges that can be unhinged easily without breaking should you wish to separate the boxes to use as a neutral zone (half on mayo tray and half on back table).
- Auto-Lock snaps that easily close and reopens for recount if necessary.
- Overlapping walls that keep sharps securely in the box.
- User friendly one-handed scalpel blade remover.
- Two spaces for safely holding scalpels.
- Built-in syringe holder with one-handed operation of the needle recapping and one handed for exchanging needles.
- Comply with OSHA requirements. Protects and enhances a safer working environment.
- Availability of all size boxes with magnetic, foam block, foam strip, and adhesive surfaces.
