

## Blunt Point Needles

Ethicon, Inc. offers ETHIGUARD Blunt Point Needles. According to the company, the ETHIGUARD Blunt Point Needle is a solution that helps protect healthcare practitioners and patients from needlestick injuries without compromising performance.

Features include:

- Compliance with the Needlestick Safety and Prevention Act standards.
- Development from a heat-treated, stainless steel alloy that delivers optimal strength and ductility to resist bending and breaking.
- Blunt point geometry that allows for easy soft-tissue penetration with no more additional bleeding or patient trauma than with a conventional taper
