Medical-Grade HD Camera

February 8, 2010

Sony presents the PMW-10MD full HD (1920 x 1080) medical-grade camera system. The camera system exhibits:

- Integration of high-quality HD video acquisition with digital recording.
- Compact size and remote camera-head for easy and adjustable overhead mounting above the operating table as well as on surgical microscopes.
- Optional lenses and optical adapters.
