

Bedside Carts

Without sacrificing storage space, Stanley® InnerSpace® bedside carts can be used for patient rooms and bedside charting. Features of the carts include:

- Use of accessories such as an adjustable flat panel monitor arm and an articulating tray for keyboard/mouse or laptop, allowing users to communicate and chart while looking at the patient.
- Full-sized drawers that can be used for patient personnel items, patient specific nursing supplies and general supplies.
- Availability in a variety of cart sizes, drawer configurations and colors.
- Availability of keyless lock options.
- Additional accessories including removable trays/dividers, glove box holders and an exam light.
