

Malignant Hyperthermia Cart

MMI Med Carts of Capsa Solutions offers the Malignant Hyperthermia Cart as a tool to fight MH in operating rooms. Adhering to MHAUS standards, the cart features:

- Complete drawer configuration and accessory customization along with an integrated 1.2CU Refrigerator/Freezer allowing for easy storage of Glycol Packs, Dantrolene and Cold Saline.
- An External Thermometer with digital readout providing instant confirmation that the supplies are at the appropriate temperature should an MH incident take place.
- Lightweight aluminum construction, proprietary drawer slides and available custom casters.
