

Multi-Purpose Wheelchair Scale

Scale-Tronix, Inc. offers its Model 6702W high-capacity, multi-purpose electronic wheelchair scale for non-ambulatory patients. According to the company, features include:

- An oversized weighing platform that measures a generous 28 x 32 and can be used with wheelchairs, chairs or as a stand-on scale.
- A large, low profile platform provides stability and easy access.
- Battery powered with digital weight display.
- Batteries last for up to 20,000 weighings.
- Weighing capacity up to 1000 lbs.
- Automatic zero, weight recall and reweigh features.
