

V-Patch For Soft Tissue Repair

Atrium's latest innovation in soft tissue repair, C-QUR™ V-Patch, combines the clinically-proven performance of ProLite™ polypropylene mesh with an all-natural, pharmaceutical grade Omega 3 fatty acid (O3FA) bioabsorbable coating and advanced deployment technology. Additional features include:

- A design for the repair of small hernias such as umbilical, epigastric and trocar site defects.
- Exclusive O3FA-Coated Reinforcement Washer allowing for easy implantation of the device through a small defect.
- A unique design that enables the implant to uniformly lay flat against the abdominal wall, and maintain a smooth contact surface for incorporation in and around the defect.
