

## Fluid Warmer

The ivNow fluid warmer from Entermics Medical Systems quickly warms and maintains the temperature of injection/intravenous and irrigation solutions prior to their use. The specially contoured warming module cradles solution bags 1 liter in size. According to the company, features include:

- A modular configuration.
- A wall mount configuration with a 1 to 6 bag capacity; countertop configuration with 1-3 bag capacity and a pole mount with a 1 bag capacity.
- Anodized aluminum heat plate.
- Lightweight, medical grade plastic housing.
- Intelligent bag sensors.
- Dual temperature sensors.
- The ability to heat to 40°C (104°F) in 30 minutes or less.
- Accuracy of +0°/-2°C (+0°/-3°F).
