

Gradient Temperature Technology

The Blanketrol® III's "Gradient Temperature Technology" has programmable and pre-set variable gradient temperature selection. This technology from Cincinnati Sub-Zero can be utilized in both the cooling and heating mode, allowing for rapid or gradual patient temperature management control.

The Blanketrol® III, coupled with the Kool-Kit®, provides an effective method for Whole Body Cooling. This application of patient cooling allows for treatment that is fast, cost-effective, and easy to use.
