Task-Vision Desk Lamp

Vision USA offers a pillar-style Task-Vision Desk Lamp, which provides proper lighting with magnification for maximum comfort. According to the company, the Task-Vision Desk lamp features:

- A 5" glass lens with 3X distortion-free optical quality.
- 22-watt color correct circular fluorescent illumination (shadow free).
- A pillar style with tilt allows viewing objects at any angle.
- A steady ABS base and CE certified.
