

Stainless Steel Carts

Suburban Surgical Company, Inc. (SSCI) offers a selection of stainless steel carts for mobilizing supplies and equipment, or an enclosed cart for emergencies or surgical procedures. The high-quality carts are designed to be practical, functional and long-lasting to enhance productivity throughout a facility. According to the company, case carts can be used for keeping all the supplies needed for individual procedures close at hand.

Load it with sterile instruments, surgical drapes, sutures and other supplies and wheel it to the surgical suite. When the procedure is finished, used items can be placed inside for return to facility's dirty area for disposing of waste and forwarding of reusable items to facility's sanitizing area where instrument's are cleaned and autoclaved.

The case cart is restocked with sterile instrument packs and items needed for the next surgical procedure or emergency. SSCI Stainless Steel Closed Case Carts feature heavy-gauge Type 304 stainless steel, formed, heli-arc welded and polished to a smooth, even finish and incorporate a host of construction features designed for industrial-strength durability and exceptionally easy care.
